

CASY203A

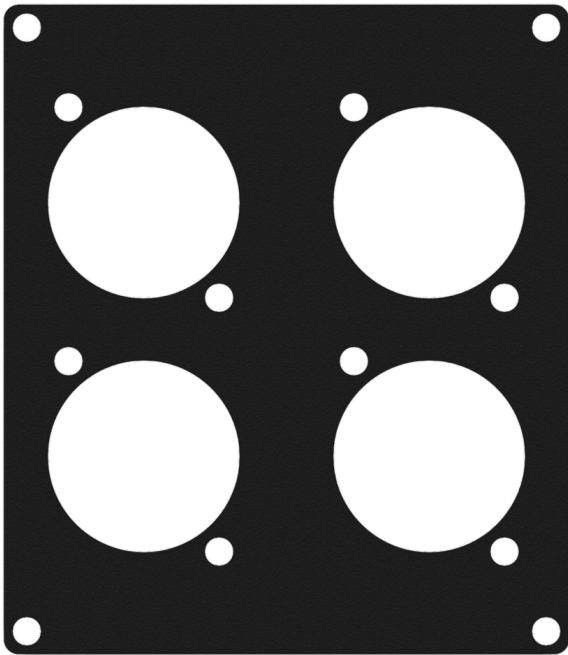

CASY 2 space aluminum cover plate - 4x D-size holes

Highlights:

- High grade aluminum construction
- Structured and scratch resistant black powder coating
- Assembly screws included
- Compatible with any CASY chassis
- Flexible system for system integration & connectivity

Product information:

The CASY203 aluminum module features four holes to fit a D-size connector. This flexible structure for system integration & connectivity can easily be implemented in a wide variety of CASY chassis. The choice of aluminum for these blind plates has a couple of advantages compared to their steel counterparts. Aluminum is much lighter than steel and therefore only adds a little extra weight to a CASY configuration. These blind plates are ideal for quickly modifying and adding custom cut-out holes due to their softer material.

Product Features:

Dimensions		2.81 x 3.23 " (W x H)
Weight		0.022 lb
Cut-out measurement		4 x D-size hole
Module	Space	2
Construction		Aluminum

Variants:

- CASY203A/B - Black version
