

Highlights:

- Flexible PVC jacket
- 28 AWG thin and dense stranded conductors
- 0.20 " (Ø) outer diameter
- Oxygen free copper
- Spiral shielding

Product information:

The CLA736 is fitted with two 3-pin XLR female connectors and one 3-pin male XLR connector, the link is constructed using the SIG155 cable. The easy to handle PVC jacket is excellent for fixed indoor and mobile applications. The inner conductors are fitted with a durable shielding. This gives an excellent protection against interference of all kinds such as electromagnetic fields produced by dimmers, electric motors or power cables. The SIG series cables are "all-round" signal cables which are suited for all kinds of applications where reliable signal transmission is needed. Available in lengths of 1.5 and 2 meters.
